The Best.

There are other good cooking stoves and A. J. Egnew & Co., keeps them in stock, but if there are two stoves in existence which lay just claims to superiority in many respects over all others they are the OMAHA AND HOT BLAST CHARTER. We have not the space here to point out their many merits but call at our establishment on Market street and we will take great pleasure in doing so there, whether you wish to buy the stove or not. We consider it the best stove in the market. oct30d&wlm. A. J. EGNEW & Co.

IN A DEN OF RATTLE SNAKES.

The Decidedly Hair-Lifting Adventures of a California Miner.

Fresno Expositor.

W. D. Hampton, of Hamptonville, informs us of a thrilling adventure that recently took place at the White Rock Quartz Mine, on the north side of the San Joaquin in Fin Gold district, which, for nerve and daring, is equal to anything we have ever heard of. There is an old shaft on the mine which has been unused for years and recently it became necessary to clear it out and use it in working the mine. The shaft is about thirty feet deep, perpendicularly, with an incline of thirty feet more. A number of rattlesnakes had taken possession of the enclosure, probably in the start by falling down the shaft, and by breeding had increased till the whole bottom seemed like a writhing mass of reptiles.

At first an effort was made to clean them out by discharging giant power cartridges at the bottom of the shaft, but this process only succeeded in killing such of the snakes as chanced to be at top of the incline, and as a last resort of the workmen, Charles Campbell, agreed to go to the bottom and kill the horrible, venomous reptiles, whose hissing and rattling could be plainly heard at the top of the shaft. Procuring a quantity of antidotes for snake poison and making all needed preparations for raising and lowering the adventurous man, who was about, as it were, to place his life in his own hands, Charles Campbell was lowered into the shafts by his trembling fellow-laborers. He was armed only with a lantern and a small stick.

The stench occasioned by the poisoned breaths of the rattlesnakes was almost overpowering, but nothing daunted, he proceeded on his errand. Reaching the bottom of the shaft he gradually groped his way down the steep and slippery incline stopping ever and anon to kill a venomous rattler that impeded his way. Reaching the bottom he plied his stick with vigor, while the mass of snakes squirmed and rattled, their eyes sparkling like diamonds and their forked tongues lapping in the air as they moved their heads in the intensity of their fury or struck with their poisoned fangs at the brave man that had dared encroach on their quarters and give them battle. Rapidly they fell over in the agonies of death under the unerring blows from his live oak stick till not a single one was left alive. Thirteen large snakes, with from seven to nine rattles each were killed and two fourteen to fifteen rattles respectively. In addition a number of younger ones were destroyed.

Finishing his daring labors he returned to the bottom of the shaft and was hauled out but the sickening and poisonous air of the snake den so overcame him that he fainted away on reaching the top. Restoratives were administered and he was taken to his home, where he lay sick two or three days, but is now fully recovered and ready to assail another den of the vipers.

THE DAILY BULLETIN is making a specialty of holiday advertisements. Call and ascertain how low our charges are.
